Bengaluru, India

Hosted By

THE SOCIETY FOR MATERNAL FETAL MEDICINE (INDIA) (SMFM I)

## ABSTRACT BOOK

### Oral Presentation

25 <sup>th</sup> Sept Hall B		
2:30 - 3:15   Biomarkers		
Abstract Title	Authors	Abstract No
Fetal microchimerism (FMc) correlates with both stages of the two-stage model of preeclampsia -a potential link to future maternal cardiovascular risk?	<b>Anne Cathrine Staff</b> Heidi E Fjeldstad Daniel B Jacobsen Meryam Sugulle Guro M Johnsen Angel Chae Sami Kannan Hilary S Gammill	ISSHP0056
Repeat placental growth factor-based testing in women with suspected preterm pre-eclampsia: a multi-centre randomised controlled trial	<b>Alice Hurrell</b> Louise Webster Jenie Sparkes Cheryl Battersby Anna Brockbank Katherine Clark Kate Duhig Carolyn Gill Marcus Green Rachael Hunter Jenny Myers Paul T Seet Zoe Vowles Andrew H Shennan Lucy C Chappel	ISSHP0090
Angiogenic imbalance of maternal serum: the total circulating PLGF is not decreased during pre-eclampsia with no fetal growth restriction	<b>Edouard Lecarpentier</b>	ISSHP0117

**Dr Prakash K Mehta**

Organizing Chairperson

**Dr Revathi S Rajan**

Organizing Secretary

## 3:15 - 4:15 | Challenges in low- and middle-income countries (LMIC) for Preeclampsia management

Abstract Title	Authors	Abstract No
Policy Lab as an engagement tool for improving pre-eclampsia management in a high-burden setting	<b>Chileshe Mabula-Bwalya</b> Alice Hurrel Harriet Boulding Katy Kuhrt Alice Beardmore-Gray Bellington Vwalika Kate Bramham Andrew Shennan	ISSHP0080
Disseminating key messages from a Policy Lab in Sierra Leone: A National Pre-eclampsia awareness Campaign	<b>Katy Kuhrt</b> Prince Tommy Williams Osman Koroma Hickmatu Leigh Moses M'bayoh Andrew Shennan	ISSHP0089
Calcium aspirin preeclampsia early prevention and response (CASPER) study; a double blinded cluster randomized trial	<b>Memory Ngwira</b> Luis Aaron Gadama Renuka Shanmugalingam Angela Makris Annemarie Hennessy	ISSHP0042
Increased Incidence of Eclampsia in Adolescents in Low- and Middle-Income Settings	<b>Alexandra Ridout</b> Laura van der Krogt Francis Moses Shivaprasad Goudar Andrew Shennan	ISSHP0087

## 4:15 - 5:00 | Trophoblast biology and Placentation

Abstract Title	Authors	Abstract No
LMWH prevents platelet and extracellular vesicle mediated placental thrombo-inflammation	<b>Shrey Kohli</b> Kunal Singh Anubhuti Gupta Berend Isermann	ISSHP0059

**Dr Prakash K Mehta**  
Organizing Chairperson

**Dr Revathi S Rajan**  
Organizing Secretary

Low-dose aspirin potentially mitigates placental inflammation by increasing LXA4 and decreasing NLRP3 in an in vitro model of preeclampsia	<b>Padma Murthy</b> Anita Pratt Jessica Davies Shanika Panagodage Hannah Yong Shaun P Brennecke	ISSHP0125
Bioprinting a Placental Model to Study the Effects of Current and Emerging Treatments of Preeclampsia	<b>Lana McClements</b> Claire Richards Bhavisha Bakrania Grace Owen Sareh Zhand Thanh Huyen Phan Qingyu Lei Kristine McGrath Wojciech Chrzanowski	ISSHP0036

## 25<sup>th</sup> Sept Hall C

2:30 - 3:30 | Cardiovascular dysfunction and Preeclampsia

Abstract Title	Authors	Abstract No
Preeclampsia Education of the Nation Indian Chapter (PEN-I), Empowering through Education	<b>Revathi Rajan</b> Prakash Mehta Sarosh Rana	ISSHP0108
National Scale-up of the CRADLE Intervention to Improve Maternal and Fetal Outcomes: a Feasibility Study for the CRADLE-5 Trial in Sierra Leone	<b>Candace Beoku-Betts</b> Alexandra Ridout Alice Hurrell Francis Moses Simren Herm-Singh Venetia Goodhart Bundu Kargbo Senesie Sheriff Abdul Barrie Moijueh Koroma Raymond Dorwie Mohamed Sesay Farcis Momoh Tamba Moitenga Kellie Koroma Andrew Shennan	ISSHP0133

## 26<sup>th</sup> Sept Hall C

2:30 - 3:15 | Screening strategies

Abstract Title	Authors	Abstract No
Serial placental profile of women with preeclampsia and normal outcome: Placental biometry/ uterine artery PI a promising marker	<b>Manisha Kumar</b> Kirti Balyan Ekta Debnath	ISSHP0029
First trimester screening (FTS) for placental pathology- Comparison of the efficacy of different methods	<b>Kavya G</b> Srimathy Raman Neelam Saraswat Padmalatha Venkataram	ISSHP0127
Blood pressure measurement and adverse pregnancy outcomes – testing alternatives to 140/90mmHg	<b>Milly Wilson</b> Laura Magee Peter von Dadelszen Hiten Mistry Laura Slade Jeffrey Bone Sarah Crozier Keith Godfrey Janis Baird	ISSHP0031

3:15 - 4:00 | Genetics and Epigenetics

Abstract Title	Authors	Abstract No
Identifying Genetic Risk Loci Associated with Cardiovascular Disease Progression Following Preeclampsia: A Genome-Wide Association Study	<b>Gayathry Krishnamurthy</b> Eric K Moses Shaun P Brennecke Haong T Phan Phillip E Melton	ISSHP0053
A multi-ancestry genome-wide association study identifies novel candidate loci near the RARB gene associated with hypertensive disorders of pregnancy in the Personalized Environment and Genes Study	<b>Jasmine A Mack</b> Farida Akhtari Adam Burkholder John House Ulla Sovio Gordon Smith Charles Schmitt David Fargo Janet Hall Alison Motsinger-Reif	ISSHP0060

Clinical profile and outcomes in peripartum cardiomyopathy with preeclampsia - A single centre experience from Southern India	<b>Yavana Suriya</b> Ajith Pillai Anish Keepanasseril	ISSHP0030
-------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------	-----------

## Poster Presentation

25 <sup>th</sup> Sept Set 1		
5:30 - 6:30   Biomarkers		
Abstract Title	Authors	Abstract No
Immature Platelet fraction (IPF) in preeclampsia: a prospective comparative study	<b>Asha Jyothi Ediga</b> Vidushi Kulshrestha Tushar Sehgal Richa Vatsa Vatsla Dadhwal	ISSHP0136
A novel biomarker - Maternal Glycosylated Fibronectin for prognostication of Preeclampsia	<b>Shwetha Chennur Mudda</b> Prakash K Mehta	ISSHP0015
Glycosylated fibronectin, a bioMarker, Point-of-care test for management of Hypertensive Disorders of Pregnancy in a low resource fertility centre – a prospective Observational study. GLIMPSE study	<b>Sunitha B</b>	ISSHP0113
The sFLT-1/PIGF Ratio versus Biochemical Parameters in Prediction of Adverse Outcomes in Preeclamptic Women	<b>Aryahi Apte</b> Manisha Kumar Kirti Balyan Ritu Singh	ISSHP0122
Hypoalbuminemia is associated with endothelial dysfunction resulting from oxidative stress in parturients with preeclampsia	<b>Saito Takuya</b> Watanabe Kazushi Wakatsuki Akihiko	ISSHP0086

25 <sup>th</sup> Sept Set 2		
5:30 - 6:30   Biomarkers		
Abstract Title	Authors	Abstract No
Glycosylated Fibronectin Point-Of-Care Test- Role in Prediction of Pregnancy Complications	<b>Ritimukta Panda</b> Srimathy Raman Latha Venkatram	ISSHP0140
Expression of microRNAs in early and late onset of preeclampsia and normal pregnancies in South Indian women	<b>Vinaya Vijayan</b> Rajendran Kannan Y Subhashini	ISSHP0157

## 25<sup>th</sup> Sept Set 4

5:30 - 6:30 | Biomarkers

Abstract Title	Authors	Abstract No
sFlt-1/PIGF ratio positive associated with non-dipper type change in ambulatory blood pressure monitoring (ABPM) for preeclampsia development	<b>Yunshan Chen</b> Xiaodan Di Huishu Liu	ISSHP0018
ROLE OF sFlt 1/ PIGF RATIO AS AN USEFUL PREDICTOR IN PREECLAMPSIA MORBIDITY	<b>Sushma Dev</b> Sowmya S	ISSHP0103
sFlt-1, Not PIGF, Is Related to the Preeclampsia Occurrence and Perinatal Outcomes in Later Twin Pregnancy	<b>Yunshan Chen</b> Xiuyu Pan Huishu Liu	ISSHP0068
Lower sFlt-1/PIGF Ratio for Prognose of Preeclampsia and Adverse Outcomes in Pregnancy with Hypertension Fluctuation	<b>Yunshan Chen</b> Huishu Liu	ISSHP0022

## 25<sup>th</sup> Sept Set 5

5:30 - 6:30 | Cardiovascular dysfunction and Preeclampsia

Abstract Title	Authors	Abstract No
Maternal C1q deficiency leads to impaired hemodynamic adaptations and cardiovascular dysfunction during pregnancy	<b>Evangeline Lovell</b> Shanna L Hosking Holly M Groome Matthew Chapman Sven Y Surikow Laura J Parry Sarah A Robertson Alison S Care	ISSHP0035
Eplerenone: a candidate drug to mitigate long-term maternal vascular dysfunction following preeclampsia	<b>Natasha de Alwis</b> Natalie K Binder Bianca R Fato Sally Beard Tu'uhevaha J Kaitu'u-Lino Natalie J Hannan	ISSHP0044
Comparative study of cardiovascular changes using echocardiography and BNP among hypertensive and normotensive pregnant women	<b>Meghana Raj R V</b> Deepthi Retnamma Babu Mamatha S Soumya Rajshekar Patil	ISSHP0106
